AOS...We Make The Difference

Message from
**Founder & Group
Managing Director**

*Welcome to the world of
Asian Overland!*

The year 2021 marks a significant milestone for Asian Overland in which we celebrate our 45th anniversary. It is also one of the toughest challenges we have ever encountered due to the Covid-19 pandemic crisis.

In the midst of closure of international borders and Governments imposing strict movement controls to ensure the safety of their citizens, we experience a huge impact in our lives, the global economy and the tourism business.

As with many businesses struggling to manage the situation caused by the pandemic, we have to take very difficult and painful decisions including cost rationalisation to ensure that we survive through this arduous journey.

Though we foresee that it would still be a tough road ahead of us as we wait for international travel to fully resume, the Company is resilient. Through our 45 years, we overcame many challenging situations and we are confident that we can overcome this one too.

In this crisis, we have also valuable reminders of two key components of our business. Firstly, that we continue to strengthen our commitment to sustainability management and turn it into consistent sustainable business practices in tourism. We hope to also influence our suppliers and partners to adopt similar practices. We are currently a Travelife Partner which recognises our commitment to social and environmental sustainability. We are complying with more than 100 criteria related to sustainability management, office operations, working with suppliers and customer communication. We are working towards further improvements aiming to eventually reach the Travelife Certified stage in 2022.

Secondly, we continue to digitalise the way we work to increase efficiency, without compromising the personal service that we always pride ourselves in giving.

I would like to record a special note on our team members. I understand that many have to face challenging personal

situations during this crisis. My heartfelt gratitude goes to them for journeying together with the Company to overcome this challenging situation.

We will survive and continue to strive to be recognized as one of the forerunners in the Tourism & Hospitality industry for the Asia Pacific region.

I would like to also thank Tourism Malaysia, the State Tourism Boards and the Malaysia Convention and Exhibition Bureau who have supported the industry tremendously. We also sincerely thank our suppliers for their support and belief in us. Not to forget too our business partners, some of whom we have worked together for close to 20 over years - we are deeply grateful for their continual support. Lastly but not least, I would also like to thank my family, friends and colleagues for supporting me in all the ventures we have undertaken.

As a veteran in the industry, I am grateful for all the blessings I have received from this enriching journey. I will continue to teach and share all my knowledge in the hope of "giving back" to the industry, which has benefited me greatly.

We will continue to forge ahead for many years to come with our pioneering spirit and deep sense adventure, never wavering from our core values of sincerity, integrity, walking the "extra mile" for our customers and investing and believing in sustainable development and environment conservation.

We Make The Difference

Asian Overland Services Tour & Travel Sdn. Bhd. (AOS) commenced in 1976 as an Adventure Company in an era when young people were beginning to discover and explore South East Asia. In response, AOS pioneered tours to Borneo. Travellers were brought to remote longhouses located along the Rejang River and other parts of Sarawak, witnessing and experiencing “off the beaten track” itineraries. Working closely with the local communities, AOS was already involved in Community Based Tourism (CBT) - long before the acronym “CBT” became a buzzword.

Today, AOS is a locally owned multi-award winning Destination Management Company. The Company’s attention to details and total commitment to ensure customer satisfaction, amongst other reasons, have resulted in the company being recognized as the **Best Travel Agency in Malaysia** for 5 years (2008, 2009, 2010, 2013 and 2014) by TTG (Travel Trade Gazette). AOS is also proud to be the recipient of the RAWR Award 2017 for **“Destination Management Company Award for Excellence”** in recognition of its professional standards, innovation and best practices achieved with Malaysia’s business events industry. In 2019, AOS was awarded **“Best Tour Operator – Inbound”** by the Malaysian Association of Travel Agents (MATTA). It has also been named as one of the **5 ASEAN’s most enduring travel agencies** by TTG.

In AOS’s commitment to sustainable business practices, AOS received in July 2020 the **“Travelife Partner Award”** having met the standards of over 100 sustainability criteria that can be grouped into five key areas: Office operations, Product development, Working with suppliers, Customer relations and Destinations. AOS is working towards being ‘Travelife Certified’ within 2 years. Travelife is an internationally recognized, GSTC-Global Sustainable Tourism Council accredited training, management & certification program in sustainability in tourism.

In AOS’s focus on excellence, the Company provides a 24-hour customer service. AOS has full time in-house drivers and guides, which enable the Company to deliver consistent quality services. The Company has a very strong and close working rapport with hoteliers and suppliers. With its own fleet of vehicles, AOS is able to deliver its services at competitive prices.

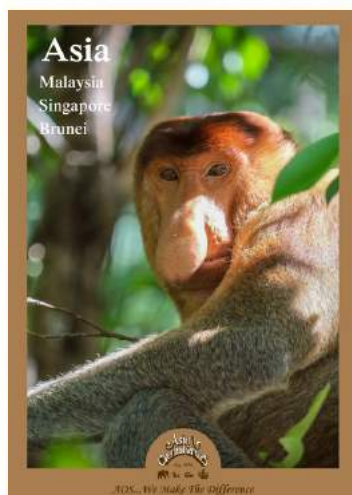

AOS’s dedicated staff team is committed to reply within 24 to 48 hours depending on the complexity of the request and provides flexible and creative itineraries. To facilitate the need for prompt responses, AOS has invested in a dynamic and state-of-the-art B to B online system, with XML capability, and allows instant confirmation (www.aosconnect.com).

Together Cottage By The Sea, a 115-room Resort that has 200 over sustainable practices, and the Frangipani Natural Farm, an organic sustainable farm in Langkawi Island (owned by common shareholders), the Company offers a variety of hospitality services.

Guided by its founder’s motto of **“Don’t go where the path leads, rather than go where there is no path and leave a trail”**, AOS will continue to craft, offer and operate unique products living up to its reputation in the industry as the Company that makes a difference.

Warm Welcome and Friendly Smiles Tucked between coconut palms and lush tropical gardens, the Frangipani Langkawi Resort & Spa is located by a pristine, white sandy beach overlooking the tranquil Andaman Sea and an archipelago of over 104 islands.

The resort remains close to the bustling Cenang Beach, yet retains its natural charm as secluded hideaway as the two beaches lay parted by a cliff, accessible only by road.
